*Redefine the microscope*

One Microscope with  
Variable Magnification  
10x-50x, up to 220x Variable  
(1x-40x, 10x-90x, 10x-240x  
430-470x, 500x Fixed,  
up to 940x with digital zoom)  
and more...

**Portable, Practical, Versatile**  
Single lens microscope with diverse applications

The included DinoCapture Application Software enables you to "capture" a photograph, video, or time-lapsed video with a simple click. Accurate measurement available.

Body length: 4 inches / 10.2 cm  
 Body Diameter: 1.28 inches / 3.2cm max  
 Cable length: 6 feet / 1.83 cm  
 Weight (ABB Models): 0.2 lb / 95g +/- 10g

**Micro Touch (Trigger Sensor)**  
 A gentle swipe over the sensor eliminates the need to use the mouse or keyboard for a snapshot.

One Microscope with Variable Magnification 10x-50x, up to 220x Variable (2x-50x, 10x-90x, 430-470X, 500x Fixed) and more...

**Magnification Adjustment Dial**  
 New scroll lock feature  
 10x-50x, ~ 220x Variable Magnification  
 1x-40x, 10x-90x, 430x-470x, 500x Fixed and more...

"AD" Series with interchangeable nozzle

A single lens fits diverse applications  
 Easy to operate  
 0 - 8 inch distance viewable area between camera and objects

2X-55X

10X-200X

400X

**Crystal clear images**  
 1.3MP SMP  
 1280x1024 pixels (1.3MP)  
 2502x1944 (SMP) Resolution

Automatic Magnification Reading

**Built-in LED Light**  
 LED on/off controlled by software  
 Built-in 8 white LEDs or Near IR, UV (ultraviolet), Green, Red filter, light diffuser available

**Portable, Practical, and Versatile**

Functions as a microscope, camera, and video camera. Optional works with Wi-Fi Module

**System Requirement**

Models up to 1.3MP:  
 Windows XP, Vista, 7, 8 & Mac OS 10.5+  
 P4-1.5GHz or equivalent AMD processor  
 1.5GB RAM required for Windows Vista, 7, 8  
 200MB + available HDD space  
 32MB video card or above  
 CD-ROM and USB 2.0

SMP (True) Series  
 P4-1.5GHz, 1.5GB RAM,  
 2GB HDD, 64MB video card

(US Patent: 7,102,817.B1)

Focus & Magnification  
Adjustment Knob  
LED Lighting & Cover

# Explanation of Features

## A single microscope for diverse applications

### Resolution

|---|---|

More than 80 microscopes..

**Polarizer "Z" Series**

Most commonly recommended model

- AM413ZTA - \$499
- 10x - 50x, 230x mag. ranges
- 1280 x 1024 pixel resolution
- Measurement features
- Magnification lock
- USB

Other models

- In polarizer series
- AM4113ZT4 (430x-470x mag.)
- AM4113ZTL (long working distance)
- AM4115ZTW (2x-55x Dual focus)
- AM4815ZT (enhanced depth)
- AM7013MZT (high magnification)
- AM413ZTAS (shortened nozzle)

**Nomenclature**

- AM - Fixed nozzle
- AD - Removable nozzle
- 2xxx - Entry level model
- 3xxx - Mid range model
- 4xxx - Professional model
- 4xx5 - Industrial standard
- 7xxx - 5 MP
- xx11 - USB model
- xx12 - Analog (TV) model
- xx3 or 5 - USB w/ measurement
- x16 - VGA model
- x22 - Eyepiece camera (TV)
- x23 - USB eyepiece camera
- x\*1\*xx or xx\*A\* - Mag. lock
- T - Microtouch toggle
- M - Metal (aluminum body)
- Z - Polarizer
- L - Working distance (long)
- I - Near infrared lighting
- F - UV LEDs with filter
- V - UV without filter
- R - Iris scope
- E - Ear scope (TV)
- N - Capillary vessel

Industrial standard

**AM4515ZT**  
**\$769**

15x - 220x  
Polarizer & diffuser  
USB

Mag. read by software  
Removable nozzle

Enhanced depth

**AM4815ZT**  
**\$869**

10x - 230x  
Polarizer & diffuser  
USB

Enhanced depth/quality  
Removable nozzle

**AD7013ZT**  
**\$995**

10x - 50x, 230x  
Polarizer  
USB

5MP resolution  
Removable nozzle

**AM4113ZT4**  
**\$529**

430x - 470x  
Polarizer  
USB

Mag. lock

**AM4113ZTL**  
**\$549**

10x - 90x  
Polarizer  
USB

Mag. lock  
Long working distance

**Additional Models**

AM4115ZTW  
(2x-55x Dual focus settings  
at a given focal length)

AM7013MZT  
or AM7013MTL  
(+long working distance)

AM7013MZT4  
(+5MP resolution)

AM4013MZTL  
AD4013MZTL

## Industrial Standard Series

**Most commonly recommended model**  
AM4215ZT

- 10x - 230x
- Improved image quality
- Enhanced depth
- Polarizer & diffuser
- Removable / swappable nozzle

**Other models in industrial standard series**  
AM4115ZTW (2x-55X)  
AM4515ZT (Automatic Magnification Reading)

Industrial standard

Automatic Magnification Reading

Enhanced depth

## Special Application Series

**High frame rate model**  
AD3713TL

- 60 fps, 10x - 90x, USB
- 640 x 480 pixels, Steel Lens

**Strobe light model**  
AD3713TB

- 60 fps with strobe light, USB
- 20x - 220x, 640 x 480 pixels

**Wide field of view model**  
AM4113TL-M40

- 5x min mag (3.4° x 2.2° FOV)
- 40x max mag (3.4° x 2.2° FOV)

MicroTouch II

## Basic Series

**Basic model**

- AM2111, AM3111
- 10x - 50x, 200x
  - 640 x 480 pixels

**Basic Improved resolution**  
AM411T

- 10x - 50x, 230x
- 1280 x 1024 pixels

**Basic with measurement**  
AM3113, AM3113T

- 10x - 50x, 230x
- 640 x 480 pixels
- Measurement features

White Light

480

D4C

200X

2mm

## Analog Series

**TV (RCA) models**

Monitor-connection (RCA)

AM4112NT

AD4112NTL long working distance

AM4112NTZT polarizer TV

**Computer monitor (VGA) models**

Monitor-connection (VGA)

AM4116ZT polarizer

AM4116ZTL polarizer & long distance

AM5116ZT polarizer

AM5116ZTL polarizer & long distance

**High definition models**

High definition TV/monitor connection

AM5018M2T polarizer

AM5018M2TL polarizer & long distance

AM4116 Series  
AM5116 Series

AM5018 Series

## Special Lighting Series

### Ultraviolet models

- AD4113T-FVW (400nm excitation)
- AM4113PVT (400nm excitation)
- AD4113TL-FVW (400nm excitation, long distance)
- AM4113T-FV2W (375nm excitation)

### Infrared models

- AM413FIT (850nm excitation)

### Combo models

- AD413T-I2V (395nm/940nm excitation)

New

## Laboratory Series

Violet light (cyan fluorescence)

AM4113T-CFVW

Blue light (green fluorescence)

AM4113T-GFBW

Blue/yellow light (green/red fluorescence)

AM4113T-GRFBY

Green light (yellow fluorescence)

AM4113T-YFGW

Yellow light (red fluorescence)

AM4113T-RFYW

Red light (deep fluorescence)

AM4113T-DFRW

The smallest fluorescence microscopes in the world

## Special lighting information

| Series | Excitation Wavelength | Emission Filter | Primary Uses                                   |
|--------|-----------------------|-----------------|--|
| FV2    | 375nm                 | 425nm           | Visualization of biological stains and dyes    |
| FV     | 390nm                 | 425nm           | Forensic, Arson Investigation, Counterfeit     |
| I2V    | 395/940nm             | N/A             | Document Examination, Dye penetrant inspection |
| FI     | 850nm                 |                 | Document Examination                           |
| CFVW   | 400nm                 | 430nm           | Subcutaneous injuries and wounds               |
| GFBW   | 480nm                 | 510nm           | Green fluorescence, zebra fish                 |
| GRFBY  | 480/575               | 510/610         | GFP, mCherry                                   |
| YFGW   | 525nm                 | 570nm           | Orange fluorescence, DSRed, cyanobacteria      |
| RFYW   | 575nm                 | 610nm           | Red Fluorescence, mCherry                      |
| DFRW   | 620nm                 | 650nm           | mNeptune                                       |

## Handheld Otoscope (Ear Scope) Series

### Basic otoscope

AM311HT  
20x - 30x  
640 x 480 pixels  
USB

### High resolution Otoscope

AM4113-EUT  
55x - 90x  
1280 x 1024 pixels  
USB

### Analog (TV) otoscope

AMH-EAN  
20x - 30x  
510 x 496 pixels  
TV (RCA)

(Compatible with 3mm, 4mm, 5mm specula)

## Handheld Dental Scope

### High resolution dental scope

AMH-DT-U1 (1x - 40x)  
1280 x 1024 pixels  
USB

"MicroTouch" trigger  
(easily capture a photo or video)  
Detachable and easily sterilized  
dental mirror or use compatible  
disposable dental mirror

Optional models:

AD4113DT-U2 (USB 10x - 90x)  
AD4112DT-T3 (TV 10x - 90x)

## Capillary Scope

### Nail microcirculation scope

Capillary vessel examination  
AM4113-NSUT  
500x  
1280 x 1024 pixels  
USB  
"MicroTouch" trigger

## Scalp Scope

### Scalp examination scope

AM4113T5X  
500x  
1280 x 1024 pixels  
USB  
"MicroTouch" trigger

## Handheld Iris Scope

### Iris scope

AM4113-RUT  
10x - 20x  
1280 x 1024 pixels  
USB

LED oblique lighting  
"MicroTouch" trigger  
(easily capture a photo or video)

# Key Features

## Magnification vs. WD

Working distance, field of view, and magnification

### Considerations when selecting a microscope

1. Magnification range (e.g. 5x, 10x, 50x, 200x, 500x)
2. Working distance (e.g. long working distance "L" series)
3. Lighting options, glare reduction (e.g. polarizer "Z" series)

A wide variety of working distance and magnification options are available to meet many applications.

### Most common

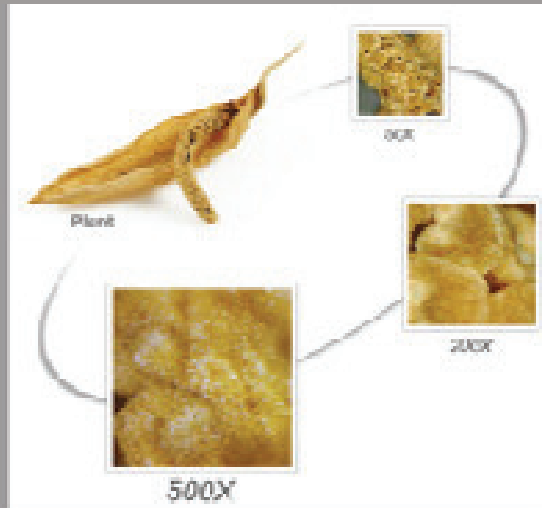

40x / 400x / 700x Series

## Available magnification

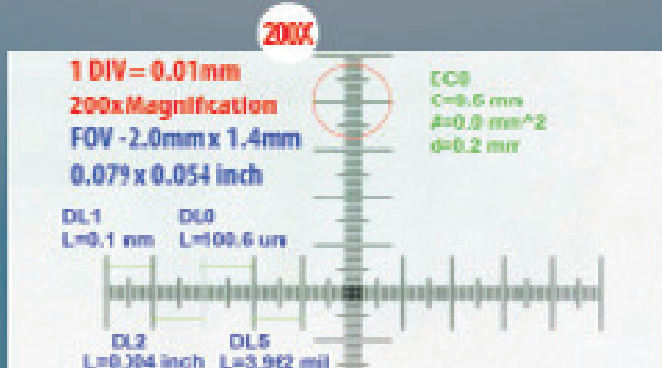

- 1x - 40x (large fov)
- 2x - 55x (dual focus)
- 10x - 90x (long working distance)
- 10x - 230x (standard continuous)
- 10x - 50x & 230x (standard variable)
- 430x - 470x (high mag. polarized)
- 500x (high magnification fixed)

## Field of View Examples

(approximate specifications, exact figures depend on specific model)

| 5X             | 10X            | 20X            | 30X            | 40X            | 50X            | 90X            | 205X           | 480X           |
|----------------|----------------|----------------|----------------|----------------|----------------|----------------|----------------|----------------|
| 3.62 x 2.25 in | 0.98 x 1.38 in | 0.77 x 0.61 in | 0.51 x 0.41 in | 0.39 x 0.31 in | 0.31 x 0.25 in | 0.17 x 0.14 in | 0.09 x 0.07 in | 0.03 x 0.02 in |
| 95 x 60mm      | 33 x 25mm      | 20 x 15mm      | 13 x 10mm      | 10 x 7.8mm     | 10 x 8mm       | 4.3 x 3.5mm    | 2 x 1.5mm      | 0.8 x 0.55mm   |

# Eyepiece Cameras

# Dino-Eye Digital Microscope

**AM4023 (1.3MP)**  
**AM4023X / XC**  
**AM4023CT**

| TV      | ~7X    | 35mm Inside Diameter | 70mm (L) x 45mm (D)  |
| USB     | ~22X   |                      | 160mm (L) x 32mm (D) |

- USB 2.0 1380x1024
- Save File format BMP, JPG, AVI
- Compatible with Windows XP / Vista / 7/8 and most Mac OS 10.5+ (\* for USB Model only)

## Microscopes Eyepiece Cameras

Compound microscopes

Stereo microscopes

Industrial boom microscopes

**Dino-Eye Cameras**  
**Easily Upgrade your Microscope to Digital**

Simply replace eyepiece with Dino-Eye USB or Analog cameras

- USB version includes DinoCapture Software
- Total system magnification = DinoEye Camera (20X) multiplied by objective lens magnification i.e. 20x times 40x or 100x of objective lens = 800x or 2,000x high power microscopes

# Professional **Dino-Eye** Endoscope cameras.

## USB Digital Cameras Easily upgrade your Endoscope to digital

### Rigid Endoscope Kit Includes:

Rigid Endoscope Kit Includes:

- High Resolution USB Camera
- 25mm coupler
- Imaging Software

Lightweight  
easy to use  
the Dino-Eye  
camera can attach to  
a rigid / flexible endoscope.

The Dino-Eye endoscope cameras produce high resolution videos and images. Some applications require a C-mount coupler for proper connection to the endoscope. Different focal distances are available to change the size of the image on the display.

### Flexible Endoscope Kit Includes:

Flexible Endoscope Kit Includes:

- High Resolution USB Camera
- 25mm coupler
- Brand specific fiberscope adaptor
- Imaging Software

### Veterinarian Handheld to Otoscope Conversion Kit

Easily go from handheld examination to inner ear inspection. The otoscope adapter produces high resolution live and captured images of the inner ear.

*This kit allows veterinarians to more effectively diagnose and treat patients.*

#29. M8A2P (for M835B / 36B)

#30. M8AK842 (Multiple Stages)

#31. M818C

#32. M8AK815 Adjustable staging holder

#33. M812C

#34. M8FCMA1

#35. M8AH352 (Silicone Skin)

#36. M8AH310 (Utility case)

#37. M8AA111 Series (diffuser kit)

#38. M8AA102 (45 Degree)

#39. M8AA105

#40. Fiber Optic Inspection

#41. BL-ZW1 (polarized LED)

#42. M8AK812 (LED holder)

#43. M835T (w/ Tripod connector)

#44. KM-F01 (Knob motor)

#45. BL-ZW1 (polarized back light)

#46. M843L (Natural light)

#47. M8AK822 (light box kit)

#48. M8AK828 (photo box)

# What's New

# Products & Features

New and upcoming

## Microscope Adapter

### Geo Tagging

Record latitude/longitude to match captured images with location.

### Cross Polarize

Dino-Lite cross polarization solution. Compact and lightweight polarized back-light along with "Z" series polarizer.

### WiFi USB

MSVC72W  
WiFi adapter designed for Dino-Lite  
Live streaming  
Broadcast up to 50 feet  
Capture image or video  
Up to 10 devices  
Compatible with most USB Dino-Lite

**New**

Motorized focus control, photo lens for MS35B stand, LED arm holder, weighted base for MS35B/36B, Tripod mount solution

**New**

**Custom Solutions**

### Portable Display

MSD10 - 2.5" TFT-LCD monitor for Dino-Lite RCA analog models

### Comparison Stand

View two live images simultaneously with the comparison stand and DinoCapture software

### MS35B-P4

### MS45BX-D2

**New**

# Software

## DinoCapture 2.0

DinoCapture offers a wide range of tools for capturing, viewing, and manipulating images and videos. Key features include image adjustments, measurements, annotation, superimpose with import and export setting, crosshair overlay, edge detection, image transparency, geo-tagging, barcode reading, IP camera, SDK, and more...

### Export measurement

### Unit change

### Calibration

### File menu

### User guide

### Open / Save folders

### Save, email images

### Select resolution

## DinoCapture 2.0

### Multiple cameras

### Measurement tools

### Image adjustment

### IP camera

### and more feature

Superimpose  
(Custom frame)  
Transparency,  
Edge Detection  
Magnifier  
Barcode reader  
Geo-tagging...

## Printing & Textile

## Health/Medical

Printing Inspection

Bit Inspection ~220x

AM413T5 ~ 500x

Portable Inspection - MS52R-W1

Detailed imaging ~ 200x - AM413ZTA

Weaving patterns ~ 50x

Hair follicle AM4113T5X

Skin AM413ZTA

Light polarization AM413ZTA

Capillary observation AD4113T - sealed cap

Nasal Exam AM411T w/ Specula

AM4113T-CFVW(430nm) Skin Analysis

Dino-Lite presents a comprehensive line of hand held digital microscopes for the medical field. These practical and effective devices have applications in the medical design and manufacturing industry as well as being a useful tool for the medical professional. The Dino-Lite medical line includes high quality microscopes specially designed for the eyes, ears, and mouth. The devices are designed to integrate with existing tools such as dental mirrors and otoscope specula. Ideal for a wide variety of practical applications such as SPA, Dermatology and more....
